Tips & Hints

Stockinette stitch is the most common stitch pattern in knitting. The right side of the fabric is the Knit side.

Leave a 6" **yarn end** before casting on stitches and after binding off.

Use the yarn needle to weave these ends in neatly on the wrong side of the fabric in a zig-zag pattern for a few inches, and then trim off excess.

A **Yarn Needle** is a blunt-tipped needle with a large eye that will accommodate many different sizes of yarn.

To thread yarn into the needle: fold the yarn end over the eye section of the needle and squeeze it lightly between 2 fingers; withdraw the needle from your fingers, push the open side of the eye down over the yarn that is still squeezed between your fingers – the yarn should slip easily into the eye.
